CONCRETE CURB & GUTTER

Diagram illustrating a detail for a precast concrete wall joint. The detail shows a vertical joint between two panels. A self-leveling sealant is applied to the joint. A 1/2" preformed expansion joint is shown. The joint is designed to extend to the bottom of the panel to prevent water from entering the joint.

Labels in the diagram:

- SELF-LEVELING SEALANT
- 1/2" PREFORMED EXPANSION JT.
- CONC. PMT.
- EXTEND JT. MATERIAL TO BOTTOM OF PMT.

EXPANSION JOINT DETAIL
